

### ALITA Product Description

The Alita is a compact adjustable LED down light suitable for both new or retro-fit commercial and residential applications. Low energy consumption and zero lamp maintenance make it ideal for lighting applications with long hours of operation or difficult access, such as commercial reception areas, corridors, lobbies, boardrooms and office spaces. Additionally you can direct the light for task lighting or to highlight artwork and architectural features. The high quality machined aluminum heatsink is more efficient than a typical die cast and considerably extends the usable life of the fixture.

### Features and Benefits

- Light output of 450 lumens
- Nominal input power of 7 Watts
- Useful life of 70,000 hours (to 70% of initial output)
- CRI of 90+
- Standard 3200K\*
- Clear or frosted lens
- Powder coat\*\* or Plated† finish
- High quality die cast bezel and housing
- Precision CNC machined aluminum heatsink
- Spring clip for mounting
- Directable beam for accent lighting
