

AQUEA 6 Standard Product Description

The Aquea 6 Standard is a compact IP68 rated LED underwater light ideal for use in water features and landscaping. Machined from commercial grade solid bronze, the Aquea 6 is designed to withstand the demands of permanent installation in chlorinated or salt water. The long life of the LED source eliminates maintenance and down time, while the energy savings quickly repay the investment.

Features and Benefits

- Light output of 450 lumens
