

### High Bay Standard Product Description

The High Bay Standard lighting fixture is a bright, efficient LED area light, specifically designed for large warehouses, recreational and manufacturing facilities. Low energy consumption and zero lamp maintenance make this fixture the ideal choice for the long hours of operation and difficult access typically found in these installations. The superior system efficacy of the product reduces energy consumption by up to 75%, significantly reducing operating costs. It is available with nominal input power of 90 Watts.

### Features and Benefits

- High system efficacy
- Low heat output
- Precise optics tailored to installation and mounting height (up to 120'/36.5m)
- Excellent surface grazing of shelving racks
- Nominal input power of 90 Watts available
- Replaces metal halide and T5/12 fluorescent
- Useful life of 70,000 hours (to 70% of initial light output)
- CRI of 90+
- 4100K or 5000K\*
- Rugged extruded aluminum housing
- Black, Matte Silver, Bright or Matte Gold Anodized finish\*\*
- Pendant mounted
