

### LINA Product Description

The Lina is a flexible linear LED lighting system for indoor or outdoor accent and low level illumination applications. The flexible board allows illumination of curved or uneven surfaces. Low energy consumption LED technology makes it ideal for areas with long hours of operation or difficult access such as coves, back lighting or edge lighting. The Lina is available in both front and side emitting versions.

### Features and Benefits

- Light output of 50 lm/ft
- Power consumption of 1.44 W/ft
- Useful life of 70,000 hours (to 70% of initial light output)
- CRI of 90+
- Front or side emitting versions
- Standard 5000K\*
- Can be cut or spliced to fit application requirements (resolution ~2")
- Minimum purchase 18"
- Silicone jacket for dry or wet locations
- 1" bending radius for positioning around tight corners
- Comes with clear mounting clips
- Virtually no maintenance
