

### LINEA Product Description

Linea is a linear LED lighting system for indoor and outdoor accent and general illumination applications. Low energy consumption and the maintenance advantages of Solid State LED technology make it ideal for areas with long hours of operation or difficult access such as coves, back lighting or edge lighting. This fixture is also well-suited for use in refrigerated and freezer display cases, where heat or shattered lamps are a concern. The multi-angle mounting bracket addresses even the most challenging application requirements. Linea is available in both High Output and Standard Output versions.

### Features and Benefits

- Available in standard (ST) or high output (HO)
- ST Light output of 50 lm/ft (HO light output of 480 lm/ft)
- ST power consumption of 1.25 w/ft (HO power consumption of 8 w/ft)
- Useful life of 70,000 hours (to 70% of initial light output)
- CRI of 90+
- Standard 3200K\*
- Standard nominal emitting lengths of 18", 24", 48" and 72"
- Extruded anodized aluminum housing
- Superior thermal management
- Multi-angle mounting bracket 30°, 45°, 60° or 90°
- Virtually no maintenance
