

### LUNA Product Description

The Luna is a compact recessed LED down light designed specifically for new or retro-fit undercabinet and shallow cavity applications, including marine and recreational vehicles. Low energy consumption and Solid State lighting technology make it ideal for areas with long hours of operation, difficult access or limited power. The Luna fixture works with existing transformers in refit applications.

### Features and Benefits

- 12 Vac/dc input with built-in driver
- Light output of 240 lumens
- Nominal input power of 5.5 Watts
- Useful life of 50,000 hours (to 70% of initial light output)
- CRI of 90+
- Standard 3200K\*
- Clear or frosted lens
- White Powder coat, Plated†, Stainless Steel or Black Anodized finish
- Constant current, 350mA driver optional‡
- High quality die cast bezel and housing
- Designed to retro-fit into standard under cabinet cutout
- Virtually no maintenance
